

# BILINGUISTICS

BILINGUAL SPEECH AND LANGUAGE SERVICES

## Interpreter Informational Sheet

You are required to:

1. Read and adhere to Processes and Procedures for Interpreters (below)
2. Communicate with Service Provider prior to testing/meeting to discuss requirement needs
3. Attend assessment session or ARD meeting
4. Convey information regarding the vocabulary, grammar and use of child's native language to Service Provider when requested
5. For assessments, translate speech samples (sample provided below) in child's native language and English and provide to Service Provider by pre-determined date
6. For assessments, provide feedback for portions of the report that relate to the child's performance in his/her native language

Compensation will be distributed once all aforementioned tasks are completed.

### Processes and Procedures for Interpreters

Sit between client (family and/or student) and service provider(s). You will be seated in the mediating position. Please see visual below:

You will interpret consecutively (not concurrently). Information will be conveyed to you in chunks and this will give you opportunity to convey the message to the client.

What's the difference between translating and interpreting?

Translator: Interprets written text

Interpreter: Translates orally

In Admission, Review, Dismissal (ARD) meetings and Assessments, we use interpreters. When we need forms translated into another language, we use translators.

Sample: Mandarin Narrative Sample – Story Retell & Translation

Finding the frog	在找青蛙
The frog is in the bucket.	青蛙在桶子裡面
