

Hoy está...

Today is...

---

Ideas for using visuals:

Make 2 copies of the sun, raining, cloudy, snowing page

Use one copy to cut out the different types of weather and glue on popsicle sticks for the students

Laminate other copy to Velcro on to the “Hoy es...”

During the song, the students can raise their popsicle stick when they hear the type of weather that correlates with their picture (can also bring rainstick for rain, sunglasses for sun, gloves/hat for snow etc.)

When the song has finished, the students decide what type of weather it is outside and Velcro it on to the “Hoy está...” page.
